About the What-To-Wear Outfit Calendar

The What-to-Wear Outfit Calendar is one of our most popular products, with good reason!

It is designed to help you use all the outfit formulas in the Year-Round Outfit Guide for Moms (www.nowthatimom.com/outfitguide) throughout the entire year. In this calendar, 365 of the 374 outfits from the book are spread out over the four seasons so that you have a different outfit idea assigned for each day of the week, all year round. This helps you avoid decision fatigue and ensures you are using the pieces in your closet to the max! When you use this calendar daily, you'll never stare at your closet again saying "I have nothing to wear." In fact, follow this calendar and never wear the same outfit twice all year! (Unless you want to.)

Each month of the year is pre-populated with the outfit formulas from the Year-Round Outfit Guide for Moms. The outfits assigned are season-appropriate and seasons are color-coded in the same way as the book. September-November is mostly outfits from fall, December-February is mostly outfits from winter, March-May is mostly outfits from spring, and June-August is mostly outfits from summer. If you live in the southern hemisphere, you can simply label the months differently to work for you!

There are 4 pages per month: The first page provides a monthly visual overview of all the outfits for that month and the next three pages provide weekly views of the outfits with the full outfit formula provided. The last page of each month also contains a list of the pieces used that month. Some moms use the list to set aside the pieces they will use that month and others use it as a shopping list to find the gaps in their wardrobe.

Monday-Saturday generally uses casual outfit formulas and most Sundays offer a dressy outfit formula. Within the week, tops almost never repeat and bottoms don't repeat more than twice because being a mama is hard work and we know your clothes might need to go in the laundry basket! Feel free to swap outfits within the week to accommodate your schedule. While we encourage you to push yourself to try every single outfit idea, this calendar is meant to HELP you, so swap days and pieces in outfits to make it work for you! Since there are 374 outfits in the book and only 365 days in the year, the additional outfits that were not assigned to a specific day are listed on the last page.

We’ve also provided blank monthly and weekly view pages at the end for you to use however you’d like.

Are you ready to enjoy your most stylish year yet? Let's get started!

All my best,

Corina Holden
